PROFESSIONAL SUMMARY

Web Developer with experience in building responsive, database-driven web applications using PHP and Laravel. Strong foundation in HTML, CSS, JavaScript, and MySQL. Hands-on experience on real-world recruitment platform (Smart Recruit). Motivated to restart career after a planned break with continuous upskilling and project-based learning.

TECHNICAL SKILLS

PHP, Laravel, HTML5, CSS3, JavaScript, MySQL, Bootstrap, MVC Architecture, REST APIs (Basic), Git, GitHub

WORK EXPERIENCE

Full Stack Developer - Webspace

Nagpur | February 2022- April 2023

- Worked as a Full Stack Developer using PHP, Laravel, HTML, Tailwind CSS, JavaScript, and MySQL
- Developed and maintained end-to-end web application features from frontend UI to backend logic.
- Built responsive user interfaces using HTML, Tailwind CSS and JavaScript.
- Implemented backend functionalities, business logic, and validations using Laravel (MVC architecture).
- Designed and managed MySQL databases, tables, and relationships; performed CRUD operations.
- Worked on the Smart Recruit project, developing modules for job postings, candidate management, and admin workflows.
- Integrated authentication and role-based access control.
- Debugged issues, optimized performance, and collaborated with team members to deliver stable releases.

Web Developer Intern - India Active Software Inc.

Nagpur | July 2021- December 2021

- Built dynamic and responsive web applications using PHP, Laravel, HTML, CSS, JavaScript, and MySQL
- Assisted in backend development, database management, and bug fixing
- Gained practical exposure to real-world web development projects and team collaboration
